Young @ Heart
July 10, 2010 7:30 PM
Roy Thomson Hall
60 Simcoe Street - Toronto

Featured in an award-winning documentary, Young@Heart bridges the gap between modern and old school with a repertoire steeped in Nirvana, Jimi Hendrix and Radiohead. **With performers ranging in age from 70 to 89**, the choir uses age as an ironic weapon and has crafted a surprising and hilarious work that is not about old people performing, but rather a performance that happens to feature older people.
